

Soviet Prints Story of U. S. Spy Offer

MOSCOW, March 23 (AP) — A Soviet newspaper published an account today of a Brazilian student who claimed an American undercover agent in Ecuador tried to enlist him as a spy against the Russians.

The student, identified as Jose Bulyous, was quoted as saying that just before he left Ecuador last August to study in Moscow, an American embassy official in Quito tried to recruit him, but he refused.

The student identified the official as John Campbell, U. S. cultural attache in Quito, and claimed he was an FBI agent, said the Communist youth organ *Komsomolskaya Pravda*.

Bulyous, 26, is a student at Moscow's Patrice Lumumba Friendship University for foreign youths.
